An Update From Guy Jones

As we hurtle towards the end of another year, it is always a useful time for reflection and, to look forward to the year ahead.

This year has seen the refurbishment of all of the London office space, providing a much improved environment to work in. Investment in technology means all field based operatives now receive job scopes and return record information electronically, improving efficiency and the customer experience. We have also automated our timesheet system which is now completed on-line.

We have achieved accreditation to ISO 14001 in both the J Brand and Canopus Solutions businesses as recognition of our commitment to the Environment. We have of course maintained the ISO 9001 & 27001 accreditations together with NICEIC certification.

Looking forward, a healthy order book is a good foundation to start from and we are fortunate to be able to plan well into the new year.

We plan to refurbish the facility in Runcorn early in 2017, which houses our commissioning centre, secure data destruction and asset disposal business, Canopus Solutions, and the ever expanding support desk facility. We will keep you updated when this is complete and arrange an open day to showcase the facility.

Guy Jones – Managing Director commented - "The J Brand Group Partner Event is now in its eleventh year. Many customers comment that it marks the beginning of the festive period. We are so lucky to be supported by so many customers and partners every year. I do hope we have a good turn out again in a couple of weeks."
